1. Finding and Reporting Defects

In this task, you will find a defect and create a defect report.
This assignment should take you about **1 hour**.
You can assess the task's completion independently by referring to the provided Evaluation criteria.

Task Description

1. Choose any application (e.g., a mobile app, website, or desktop application).
2. Try to find a defect. This could be something like a button not working as expected, an error message appearing when it shouldn't, or incorrect information being displayed.
3. Propose a template for a defect report.
4. Describe at least **five defects** using the guidelines discussed in the lesson and your template.
5. Prepare a summary of all the defects (in any format).

Evaluation criteria

Use the table below to evaluate your work.

Criteria/Points	0 points	1 point	2 points
Defect report template	Defect report template is absent.	Defect report template contains some of the required fields.	Defect report template contains all of the required fields.
Additional fields in the defect report template	Defect report template does not contain additional fields.	Defect report template contains at least 1 additional field.	Defect report template contains 2+ additional fields.
Priority and severity	Priority and severity are not described.	Priority and severity are partially described.	Priority and severity are described.
Summary	No summary.	Summary is present.	-

| Criteria/Points	0 points	1–5 points	
Defect report (1 point for each defect)	Defect report is unclear and too general.	Defect report is clear and concise.	-

2. Creating a Defect Report

In this task, you will create complete bug reports. This assignment should take you about **1 hour**. You can assess the task's completion independently. Please upload your solutions. Please note that the task will not be checked. You should evaluate your solution yourself using the evaluation criteria provided below.

Task Description

1. Find bugs in the screenshots below.
2. Describe at least five defects of different types:
   o Functional
   o UI
   o Usability
   o Localization
   o Etc.

Please find the screenshots below.

Evaluation criteria

Use the table below to evaluate your work.

Criteria/Points	0 points	1 point	
Defects of different types: functional, UI, usability, localization, etc.	Type is not specified, or all defects are of one type.	At least two different types of defects are defined.	-
Defect description	Defects are described for one screenshot.	Defects are described for both screenshots.	-
Criteria/Points	0 points	1–5 points	2–10 points
Quality of defect report (1 or 2 points for each of 5 defect types, 10 points max)	Defect report is not clear and concise.	Defect report is partially clear and not entirely concise.	Defect report is clear and concise.
