## Task Description

Your task is to review a sample TRR **(please find in attachments)** and try to analyze it by answering the following questions:

Is the TRR good or bad?

Does it contain all the required sections to cover the test results?

Should any sections be added to the TRR?

Do you think this TRR will be helpful for stakeholders?

## Evaluation criteria

Use the table below to evaluate your work.

| Criteria/Points | 0 points | 1 point | 2 points |
|---|---|---|---|
| Analysis quality | The analysis only answers some of the questions from the task, and the answers are incomplete and illogical. | The analysis answers most of the questions from the task, and the answers are complete and logical. | The analysis answers all the questions from the task. The answers are full and logical. |
| Additional sections in the TRR | No sections are added. | One section is added to the TRR example, with an explanation of its necessity. | At least two sections are added to the TRR example, with explanations of their necessity. |
| Opinion on the usefulness of the TRR for stakeholders | No opinions are provided. | Opinions are provided but not explained. | Opinions are provided and explained. |
